- #6 – Boiler Circulator
- #7 – System Circulator
- #8 – Condensate Neutralizer

**Note:**

This is not an engineered drawing and does not necessarily include all the components for an entire system. It is intended as a representative sample of how the system may be piped for a sample application. It is the responsibility of the installer to seek professional advice and/or install the system to meet all necessary codes for the jurisdiction of the actual installation.
